Project on Basic Travel Agency

I. Introduction

It is a basic website for tourism business. It is static and responsive web design. It is also called travel technology solution for agencies & tour operation. Nearly Everyone goes on a vacation for this a 'travel system' would play a vital role in planning the perfect trip. The main purpose is to help tourism companies to manage customer and hotels etc. The system can be used for both professional and business trips.

The proposed system maintains centralized repository to make necessary travel arrangements and to retrieve information easily. Tourists are more attractive for cultural diversity of the world.

II. Objective

The objective of this project is to develop a system that automates the process and activities a travel and agency and customer details. The purpose is to design a system using which one can perform all operation related to travelling and sight-seeing.

III. Motivation

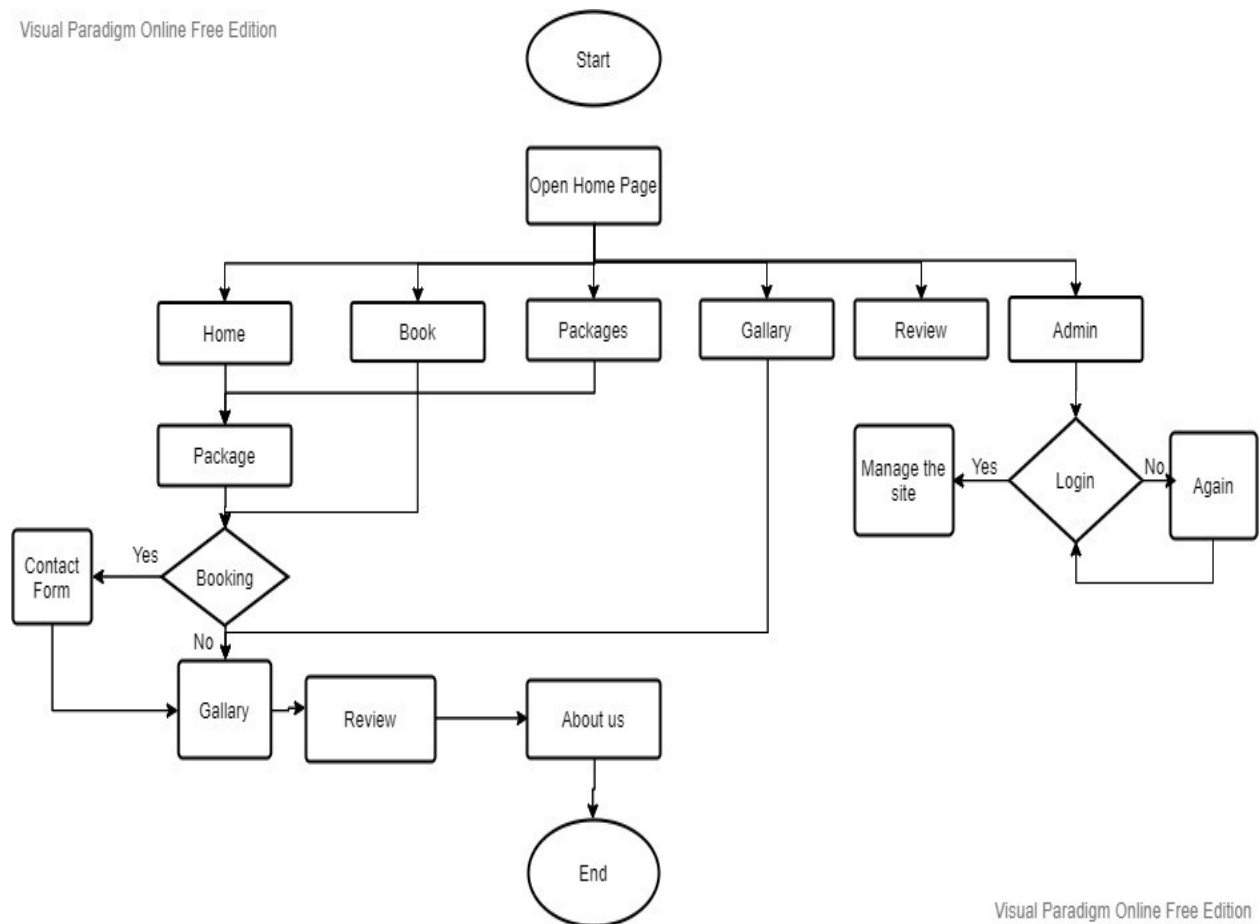

The purpose of website is established fact that internet users are increasing today. Today one of the main purposes of the website is to facilitate the offline customer online because customers cannot spend their precious time in markets trying to find out the best deal. Our priority will be our customers and their travel requirements. we will putting an effort to provide the right choice to the people when they plan a holiday and beware them from the false advertising.

IV. Background Study
